

ARJUN M

Full-Stack AI Engineer

Kozhikode, Kerala, India | +91 9048310440 | arjunrajeshm@gmail.com | [linkedin.com/in/arjunm3009](https://www.linkedin.com/in/arjunm3009) | github.com/A5PHANTOM

SUMMARY

AI Engineer and Full-Stack Developer with experience building production-ready AI voice agents, scalable backend systems, and modern web and mobile applications across AI, IoT, web, mobile, and hardware. Passionate about combining software engineering, artificial intelligence, and entrepreneurship to solve real-world business problems, from LLM-powered conversational agents to full-stack platforms taken from idea to deployment.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL (MySQL), JavaScript, HTML/CSS, Dart
Frameworks & Libraries: FastAPI, Flask, React, LangChain, Flutter, pandas, NumPy, Matplotlib, scikit-learn
AI/ML & Backend: LLM integration, speech recognition, NLP, text-to-speech, REST API design, microservices, anomaly detection
Developer Tools: Git, Docker, Firebase, Google Cloud Platform, VS Code, PyCharm, SQLite, Streamlit, Pipecat, Exotel
Spoken Languages: Malayalam (Native), English (Fluent), Hindi (Fluent)

EXPERIENCE

Codely.AI Private Limited <i>Python & AI Intern</i>	Kozhikode, Kerala Jan 2026 - Jul 2026
Developed AI voice agent solutions using Python, FastAPI, and large language models, integrating speech recognition, natural language processing, and text-to-speech for real-time conversational AI.	
Heartitude Foundation <i>Technical Team Head</i>	Kozhikode, Kerala May 2025 - May 2026
Led end-to-end development of the organization's official website, delivering a responsive, secure, and user-friendly experience.	
Bluegen Solutions <i>Flutter Intern</i>	Kozhikode, Kerala Jun 2024 - Jul 2024
Developed high-performance cross-platform mobile applications using Flutter and Dart, optimizing UI responsiveness and state management.	
Freelance - Kemmaxclp.com <i>Independent Web Developer</i>	Remote Jun 2026
Built and deployed a static business website for a client using React and Resend, handling end-to-end delivery from development through GoDaddy hosting.	

PROJECTS

AURA (Autonomous Unattended Rover Analyst) Python, FastAPI, React, ESP32, Ollama, LLaVA	
- Developed a full-stack AI surveillance system using FastAPI microservices and a React dashboard, enabling real-time control, monitoring, and visualization of rover data. - Integrated offline AI using Ollama and LLaVA for on-device visual understanding, including face detection and scene recognition.	
Travel Booking Voice Agent Python, Pipecat, LangChain, Exotel	
- Built a conversational voice agent for travel destination booking using the Pipecat framework and Python, with LangChain orchestrating LLM-based conversation logic. - Integrated Exotel speech-to-text and text-to-speech to support real-time voice interactions in Indian languages.	
Auto DNA Flutter, FastAPI, SQLite, Streamlit	
- Built a mobile-first vehicle intelligence platform to report incidents, track vehicle history via number plate lookup, and analyze damage using AI. - Designed end-to-end pipelines for report submission, admin verification, AI-based damage estimation, and secure data storage with a FastAPI backend.	

EDUCATION

Indian Institute of Technology Madras <i>BS in Data Science and Applications (Diploma Level, in progress) - Foundation Level completed</i>	Chennai, Tamil Nadu 2023 - 2027
AWH Engineering College <i>B.Tech in Computer Science Engineering</i>	Kozhikode, Kerala 2022 - 2026
Vedavyasa Vidyalayam - Higher Secondary Education	2020 - 2021
Devagiri CMI Public School - Secondary School Education	2019 - 2020

LEADERSHIP & CO-CURRICULAR ACTIVITIES

Quality & Operations Lead - IEDC AWH	Jun 2025 - Mar 2026
Streamlined operational workflows and cross-team coordination for events and initiatives, ensuring quality standards and timely execution.	
Volunteer - NSS 241 AWH	Mar 2023 - May 2024
Organized and managed community service initiatives, including social outreach programs and awareness campaigns.
